

Facility and Family Health, Safety, and Cleanliness Protocols **Revised for Summer 2021**

In an effort to keep staff, volunteers, participants, and guests safe and healthy, First Tee - GCNKY is continuing adherence to the following protocols. These measures have been carefully considered and make every effort to comply with best practices defined by Responsible Restart Ohio and Back2Golf's Junior Golf Programming Addendum. Due to the fluid nature of the pandemic, these are subject to continue evolving with the situation.

Participants, Parents, and Families Safety Protocols:

- Water will NOT be provided. Participants should bring their own water to class.
- Masks or facial coverings are not required for coaches, volunteers or participants when outside. If inside, local facility protocols should be observed at all partner courses.
- Adults may use the building to use the restroom or wait during class. Specific capacities and facility expectations should be observed at all partner courses.
- Single-use name tags will be provided to participant each class.

Arrival:

- Participants should arrive no earlier than 15 minutes prior to the start of their class.
- Parents should self-monitor temperatures at home. If a child has a fever of 100 degrees or higher, they should not come to class. If you feel ill, we ask that you take precautions and stay home from class.
- All participants should sanitize hands upon arrival, then pick up their own name tag from the check-in table and make their way with their water and equipment to a safety circle.
- A safety circle will be provided for each child as a place to leave water and clubs for class. Participants should wait in the safety circle until the coach begins class.

Class:

- During classes, proper distancing will be followed- contact-less classes will be observed (i.e. no handshake lessons) and warm-ups/activities will not have shared equipment.
- Each participant should have their own equipment – clubs may be borrowed from the Chapter.

Dismissal:

- Parents/caretakers should line up at the designated pick-up area and wait until their child is called on.
- Inclement weather decisions will follow course specific information provided in the Parent Info Guide.

Staff, Coaches and Volunteers Health and Safety Protocols:

- If a Staff member, coach or volunteer is feeling ill prior to coming to work, they should stay home. Notify your direct report ASAP of your need to miss work/class.
- Face masks are optional for coaches, volunteers and staff subject to the local course's posted protocols.
